DETAILED ACTION

1. This Office Action is response to the Amendment filed on September 16, 2004.

Allowable Subject Matter

2. Claims 1, 6-14, 19-26 are allowed and renumbered as 1-18.

Reason for Allowance

3. The present invention related to a method for taking the graphic adaptor away from the system PC box and placing the graphic adaptor with the monitor for avoiding the bottleneck caused by the cable having to carry all of the bandwidth of the high resolution images. Each independent claim identifies the uniquely distinct features

“such as at least one of a data bandwidth bottleneck between the graphics adaptor and said monitor and an electromagnetic radiation due to and analog/digital transmission line for the display data between said graphic adaptor and the monitor is reduced”.

The closest prior art of the Applicant Admitted Prior Art and Strongin (U. S. Patent No. 6,304,035) show similar systems, but either singularly or in combination, fail to anticipate or render above quoted limitations obvious.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
